SERVICE FLYER | COMPACT

Identify risks. Set priorities. Take practical action.

The Security Quick Check shows concisely which controls work, where relevant gaps remain and which improvements should be addressed first.

01 **Clarity**
Existing controls and the main physical security risks become visible.

02 **Priorities**
Recommendations are ranked by urgency, effectiveness and feasibility.

03 **Action plan**
A concise report turns observations into practical next steps.

FOR SHOPS, PRACTICES, OFFICES AND SMALLER SITES

SECURITY QUICK CHECK | ASSESS | PRIORITISE | PROTECT

COMPACT PHYSICAL SECURITY ASSESSMENT

As much analysis as needed. As practical as possible.

The Security Quick Check combines a structured site visit with clear management insight. Not every weakness requires a technical investment. The aim is to identify the measure that reduces risk effectively and economically.

SUITABLE FOR

- Shops and jewellers
- Practices and offices
- Smaller commercial sites
- Clearly defined review areas

WHAT YOU RECEIVE

Site assessment	Structural, technical and organisational controls reviewed together.
Prioritised report	Findings, risks and recommendations ranked in a practical order.
Clear discussion	Results and sensible next steps explained clearly.

Typical review areas

- Site and building access
- Keys and permissions
- Customer, visitor and supplier areas
- Intrusion protection, video and alarms
- Processes outside opening hours
- Response to incidents

Process

01 Clarify
Site, assets and most important questions.

02 Review
Standard scope of up to two hours on site.

03 Prioritise
Concise report with a practical action plan.

04 Discuss
Online close-out meeting and next steps.

IS THE QUICK CHECK RIGHT FOR YOUR SITE?

A short description of the site is enough for an honest initial assessment and confirmation of the appropriate scope.

Preparation, up to two hours on site and an online close-out meeting.
